Amelia is four years old and she was born with symbrachydactyly. Since Amelia was born and she has always been so bright and determined. We have always brought her up to know she can do anything she wants, sometimes certain things she does are done differently but she always manages to find her own way which totally amazes us still! Amelia is very active, she really enjoys swimming, where she has lessons weekly, also dancing and singing (usually whilst dressed as Elsa) and her favourite hobby being horse riding. With adapted looped reins Amelia currently walks and trots weekly on a little pony called Dolly who she adores! We've also noticed from a young age Amelia loves animals, big or small! When home Amelia spends a lot of time with our dog Simba, who is often found in her little dens having stories read to him! Amelia is known by all friends as a family as a very chatty, loveable character with a huge heart. It is truly incredible seeing nothing stop Amelia!
